Vertical Tasting

Come join us for our first ever Vertical Tasting!

In the wine world, vertical tastings are much more than a simple wine tasting but rather a unique experience focused on understanding how wines age and where vintages shine.

During a *vertical tasting*, different vintages of the same wine type from the same winery are sampled and compared. This “exercise” highlights the differences between various years and allows one to experience the grape variety to a deeper extent by understanding the aging and fining process that takes place in the cellar, and continuing in the bottle, slowly and patiently, as time goes by.

In chronological order we will sample **5** different vintages of the world famous - and one our best reds - Cabernet Sauvignon. An additional 6th wine, our estate grown Late Harvest Frontenac, will conclude the tasting. The progression will take place after a brief tour of our wine cellar where the wine making *art* is explained at any step of the process. Each wine will be paired with fine imported Italian cheese.

Come celebrate (and taste) this fabulous grape variety for this one time only event. Space is limited to **35 guests**.

Event Date: Sunday, November 18, 1:30 pm

Cost: \$45/person

The price includes: guided tour of the wine making facility, a private and informative vertical tasting of 5+1 wines accompanied by imported Italian cheese and a Narcisi Logo souvenir glass.

Duration: approximately 90 minutes

Full payment is due at the time of reservation and is not refundable. For info and reservations email Roberto at roberto@narcisiwinery.com or call 724.444.4744.
